S. S Rana & Co. celebrates International Women's Day

Women's Day is celebrated every year on March 8 since the year 1900 with same sprite and enthusiasm. This year on the Women's day, President Mukherjee laid emphasis over Gender Equality while Prime Minister Narendra Modi saluted the indomitable spirit, determination and dedication of Nari Shakti.

Women's day is celebrated to salute all the women from every economic and political background for their love, patience and hard work which they put in for growth and development of the society.

We, at S.S Rana also celebrated this day with exhilaration. All vibrant and energetic women employees arrived in traditional Indian wear. The celebration began with training on women empowerment and ways to achieve work-life balance, followed by a quiz on successful women of the world. Each woman employee was given a personalized message from a male employee appreciating the spirit of womanhood. We are proud to mention that more than 50 % of the entire staff of S.S. Rana & Co. are women and wholeheartedly appreciate the effort that each one of them gives to maintain a crucial balance between different facets of life.
